The Department of Development is responsible for raising resources to support Mayo Clinic Health System in Southwest Minnesota. Our goal is to link local contributions to the real needs of the patients in our region while helping to build the infrastructure to transform the delivery of care in our communities.

What We Do

We secure and distribute charitable gifts to enhance our compassionate and healing mission. We raise money and help link local generosity to the real needs of patients of all ages. We support our hospitals as we aim to offer the highest level of quality care where we need it most – right here, close to home.

How You Can Help

- Gift of money or securities
- Bequest through a will
- Gift of life insurance
- Gift of real estate/farmland
- Create a charitable trust (Remainder Trust and Lead Trust)

One hundred percent of your gift goes directly to your area of choice and stays in the community you wish to support.
